REGISTRATION FIGURES ARE NOW COMPLETE

Decrease of Over Three Hundred in Attendance This Year.

ARTS FACULTY HAVE LEAD

Faculty of Applied Science Have Second Place Compared to First Place Last Year.

According to the figures issued yesterday by the registrar, there is a decrease of over three hundred students in attendance at college this year. The decrease is rather equally divided among all the faculties, with the exception of the dentistry course, where an increase of five is shown.

Last year the Faculty of Applied Science had the largest attendance, with the Arts Faculty a close second, the figures being 486 compared to 473. This year shows the Arts Faculty to be in the lead, with the Faculty of Applied Science second, with a considerable difference in the totals, 395 compared to 325. The total lists are as follows:

ARTS.			
First Year.			
Men	Under-graduates	69	23
Women	Partials	47	13
Total			152
Second Year.			
Men	Under-graduates	54	20
Women	Partials	22	7
Total			103
Third Year.			
Men	Under-graduates	42	7
Women	Partials	29	7
Total			85
Fourth Year.

LOST

In old Molson Building, a military boot (brown) for the left foot. Name of owner, C. W. Honey, is inscribed inside of boot. Finder will greatly oblige by returning same to the Janitor, Arts Building.

Lost, a long black electric flashlight, battery No. 705, in Molson House attic. Finder please leave with caretaker of Engineering Building, or K. R. Knight, Sec. A, Science '19.

Lost, in Molson House, one pair of black buttoned boots with cloth tops. Finder please leave with caretaker of Engineering Building, or F. D. Cowan, Sec. A, Science '19.

Lost—A pair of black boots in a brown paper parcel, in the attic of the Molson House. Finder please return to Frank Hale, Sci. '18.

POSTPONE SMOKER

American Club Postpones Smoker Owing to "Conversat." on Friday Evening.

Due to the fact that the annual "conversat." of the year is to be held Friday evening, the executive of the American Club has deemed it advisable to postpone the first smoker of the club, which was scheduled for that date. American students will watch The Daily for future notices regarding the smoker.

JOY RIDE OF SENIOR MEDS. IN ELEVATOR

One Casualty Suffered In Unexpected Four-Storey Dash to Ground.

MACPHERSON WAS INJURED

Men With Big Feet Asked In Future to Descend By Way of Stairs.

Fifteen medical seniors who yesterday morning crowded into an elevator at the General Hospital, which at ordinary times accommodated only eight persons, had a narrow escape from being dashed to death when the elevator became unmanageable and crashed to the ground floor, four stories below.

Just how the accident occurred has not been definitely explained. Several heavyweights of the class climbed into the elevator at the fifth floor, expecting to descend as usual and wend their way to lunch. All went well until Sid Baldwin and Joe Donnelly entered the cage, when it suddenly began to drop at a furious rate which increased until the basement floor was reached with a sickening thud. The floor of the car was not damaged, but the roof caved in, hitting "Sandy" MacPherson on the head, and inflicting slight injuries. He was soon brought back to life. Luckily, this was the only serious casualty, though some of the other joy-riders were afflicted with anaemic countenances and wobbly knees for the rest of the day. "In future," said one of the senior meds., to The Daily, "the two aforementioned fat men, together with 'Spiky' Miller Bill Stevens, Art Stewart and a few others with large pedal extremities, will kindly descend by the stairs."

IMPERIAL DAY

R. V. C. Will Collect For Red Cross To-morrow, in McGill Grounds.

To-morrow is Imperial Red Cross day. At the request of the aldermen of the city, collections are to be taken in three wards. McGill is in St. George's Ward, and the Students' Council have been asked to make arrangements for subscriptions. To-morrow (Friday) morning, at a quarter to nine, two students of the Royal Victoria College will be at the campus gates and at the entrance to each University building with collection boxes. It is asked that all students defer their subscriptions until they are within the McGill grounds.

'VARSITY LIT. SOC.

Officers of Toronto University Literary and Scientific Society Elected by Acclamation.

The first general caucus of the Literary and Scientific Society of the University College, Toronto, resulted in the election by acclamation of every member of the executive for the coming year. The attendance was not encouraging, but it is hoped that a greater interest will be stimulated in the society later on.

The executive-elect consists of: President, J. R. L. Bone, B.A.; vice-president, J. W. Niblock; curator, J. Kingsburgh; corresponding secretary, J. D. Spellen; treasurer, A. A. Horton; second year councillors, W. C. Sharpe and W. P. Hanry.

Two freshmen councillors will be elected later.

What's On

12.15—Students' Council picnic.
4.00—Soccer practice at Stadium.
5.15—Gym classes, Dr. Barker.
7.30—First orchestra practice.

Oct. 28—First orchestra practice, 7.30 p.m.
Oct. 29—"Conversat." for freshmen at Strathcona Hall.

Oct. 29—Photograph of Daily staff.

Oct. 29—Union meeting at 5.15.

Oct. 29—Science '16 vs. Science '17.

Nov. 2—Oriental Society at 8 p.m.

Nov. 2—Eastern Townships Club smoker.

Nov. 15—Cercle Francais dinner.

FRESH-SOPH. SMOKER WAS BIG SUCCESS

Dr. Barnes Delivers Address on Submarines, Accompanied With Slides.

ENJOYABLE PROGRAMME

Dean Moyses Tells of Ingenious Methods Used to Overcome Germany's Sea Power.

The Arts freshman-sophomore smoker held last night was a complete success. There were not as many there as had been hoped, but those in attendance certainly had a good chance of making friends and discussing the recent battle with the sophomores.

The orchestra for the evening, composed of Messrs. Aylen, Shearer, Rothschild and Klineberg, started the ball rolling with a pleasant musical selection. Following this Mr. Hugman sang a solo about the army, which was very well adapted to the present circumstances. This was well received, and he responded with another pleasant selection.

The most instructive part of the entertainment was a speech by Dr. Barnes on submarines, accompanied by lantern slides of some of the recent models and interesting views. He told some very interesting facts about the present methods of submarine attack and defence, and the new methods of locating and destroying submarines off the British coast, thanks to the invention of the microphone receiver, which locates a submarine by its noise and makes it possible to distinguish the noise of submarine from any other craft. He gave interesting data concerning the progress of submarine building, and of the changes brought about by the invention and installation of the internal combustion engine. He showed interesting views of the new British and German submarines, and some remarkable photographs. This was all very much appreciated by the students, and he was well received.

Dean Moyses then said a few words about his experiences coming over and told of the ingenious methods used by the British navy to overcome Germany's sea power. He expressed himself very glad to be back again, and hoped that every man able would prepare himself to help his country. He expressed his love for McGill, and spoke of her duty in the present war. His opinion and the opinion of many others is that "character" is the standard to judge a nation's greatness by, and it is mainly for this reason that Britain went to war, and she may always look back on this proudly.

The next act on the programme was very acceptable, being the serving of refreshments, and the entertainment was brought to a close by the singing of a few songs by Dean Moyses, Dr. Caldwell and others, while all joined in the singing of Alma Mater and its college yells.

J. C. Farthing and S. J. Hodgson, president of the second and first years, respectively, spoke briefly at the close of the smoker.

LECTURES ON MUSIC

Dr. Perrin Declares Natural Causes Account for Varying Musical Tastes.

Natural causes, declared Dr. Perrin, director of the McGill Conservatorium of Music, before the Morning Study Class of the Women's Art Society, account for the varying musical tastes of various nations. The subject of the discourse was French music. The French music, he said, has been a light music for gaiety and dancing. No other nation has so decided a bent for rhythm. Previous to 1525 it is difficult to trace French music. The printing of music was begun that year, and programme music and descriptive vocal compositions quickly followed. The opera period began in the 17th century. The perfection of keyboard instruments gave popularity to little tone pictures.

The early part of the 17th century marked the rise of the violin school. The end of the 18th and the beginning of the 19th centuries produced operas by Frenchmen such as Mehul, Boieldieu, Auber, Halévy and Herold, operas that are still performed. The "bread and butter" of violin students, works which must be studied to-day, were produced by Vioti, Rode, Vieuxtemps, and De Bériot.

The development of orchestral brass and wind instruments gave music still studied. Then came Offenbach, originator of the opera bouffe, Bizet, Gounod, Massenet and the present-day composers, Debussy and Charpentier, composer of "Louise"; Saint Saens, the most versatile composer of the present day, is brilliant and a trifle hard. Organ composers of to-day are Widow and Guilmette; piano, Godard and Chaminade. The school headed by Caesars Franck and D'Quoy is definite, classical, using modern harmonies; that of Debussy and Ravel is indefinite, shadowy, vague and with strange harmonies.

MAYOR CHURCH PAYS A VISIT TO THE UNION

He Expressed His Regret That Intercollegiate Athletics Had Been Discontinued.

INTERVIEWS MARTIN

Was in Ottawa Yesterday to See About the Toronto Aviation School.

Mayor Church, of Toronto, president of the Citizens' Recruiting League, paid a visit to the Union last night, while the freshman-sophomore smoker was in progress. He gave a short interview to The Daily reporter, during which he deplored the absence of intercollegiate athletics this year, and expressed his regret at the falling off in the registrations. He spoke of the good work that the Citizens' Recruiting League had been doing in Toronto, stating that 18,000 soldiers would be stationed in Toronto for the winter.

The mayor had just returned from Ottawa, where he had interviewed Sir Sam Hughes in order to ascertain the status of the Curtis Aviation School. Mr. Church is staying at the Ritz-Carlton, and he intends remaining in the city for a few days. The mayor said that he had seen Mayor Mederic, who told him that it would be impossible for him to return to the Council chamber until he had received the apology from the offending alderman. Mr. Church had nothing to say about the stand of his Montreal contemporary.

The mayor seemed very disturbed at the regrettable accident that happened to "Glad" Murphy, the star of the Argos, and he said that he had been to see him at St. Michael's Hospital, where he is under the care of Dr. "Smirle" Lawson, the ex-Varsity and Argos star.

Mr. Church congratulated "Don" Smelzer, the McGill all-round track champion, and extended to him an invitation to call when in the Queen City. His Worship then expressed his unqualified approval of the good work that the McGill C.O.T.C. had been doing in training officers and men for the front, and he said that he hoped the good work would continue during the duration of the war. He spoke of the great part that McGill had played thus far in the great struggle, and he offered to help in any manner as lay in his power.

Correspondence

The Daily is not responsible for the sentiments of letters published in the correspondence column. Signed communications from graduates, undergraduates and members of the faculty will be placed in print if they are not of too great length.

Correspondents are requested to observe the unwritten law of the newspaper office—that they write upon ONE side of the paper ONLY.

No communications will be admitted to this column without the name of the writer being attached FOR PUBLICATION.

To the Editor of The Daily:

Dear Sir,—At a meeting of the executive committee of the Literary and Debating Society held last Friday, the question of the attitude of that society to the C.O.T.C. was discussed, and I would be obliged if you would allow me the opportunity of making known to the student body through your correspondence columns the policy of the Lit. in that respect.

It was the unanimous feeling of the different members of the committee that the Literary Society should not compete for members with the McGill C.O.T.C., and that no effort should be made to enlist the active support of men who would otherwise have devoted such time to the securing of a military training. The executive shared the opinion of the heads of the C.O.T.C. that, in view of the gravity of the present situation, hours, which are not spent in the pursuit of education, should be invested in an effort to acquire some knowledge of military science. With this consideration in mind, the committee has decided on a policy for the current season of seeking the support of no students who are only in search of a means of pleasant amusement. The Literary and Debating Society will this term cater entirely to men who are earnestly desirous of increasing their general efficiency by acquiring a thorough knowledge of the art of self-expression and debate. Students, who are anxious to realize in this way the highest value of the education which they are receiving along other lines, are warmly invited to take part in the coming meetings of this society, but the attendance of those who come for other than educational reasons will not be encouraged by the executive, as such men are not busy performing a duty to those to whom they are under obligations, should be busy performing the duty of increasing their military value to their country.

The following resolution, embodying the above sentiments, was therefore adopted by the executive: "Resolved, that the Literary and Debating Society should not, during the term 1915-16, seek the support of men who would otherwise have joined the McGill C.O.T.C., but only that of these men, who, looking upon the art of self-expression and debate as one of the important departments of their education, are desirous of taking part in the activities of this society with a view to increasing their efficiency, and not with a view to merely finding a pleasant form of amusement."

Thanking you, Mr. Editor, for extending to me the privilege of your columns,

I am, yours truly,

FRANK B. COMMON.

Pres. Lit. and Debating Soc. Montreal, Oct. 27, 1915.

R.V.C. MEETING

An important meeting of the R. V. C. Undergraduate Society will be held today at one o'clock in the common room. Business: Discussion of funds for the Red Cross Society.

A meeting of the executive of the R. V. C. Red Cross Society will be held to-day immediately after the undergraduates' meeting.

THE DAILY PHOTOGRAPH.

On Friday afternoon, the members of The Daily staff will please present themselves at Rembrandt's Studios, 591 St. Catherine street, at 1 o'clock. Be on time. All members are requested to be there.

BOARDS MEET TO ARRANGE FOR ANNUAL

Fully Attended Meetings of Combined Editorial and Business Boards Held in R. V. C.

MANY MATTERS DISCUSSED

Juniors Earnestly Requested to Hand in Pictures as Soon as Possible.

A combined meeting of the editorial and business boards of the Annual was held last night at the R.V.C. All the members were present, and a variety of matters were dealt with. The main business for discussion was the contract for the printing of the Annual. The various clauses of the contract were passed upon, and the business board authorized to sign it.

There being nothing else with which the combined boards could deal, the members of the business board, upon a motion, retired from the meeting.

The editorial board discussed suggestions which had been received. It was decided that the year's Annual should, if possible, incorporate more literary matter than in former years. The students are earnestly requested—nay, even implored—to attend to the matter of having their pictures taken. The Rembrandt Studio, 121 Bishop street, has made the most acceptable offer in this connection, and the members of the junior year should attend to this matter at once.

A motion was made to the effect that any one who had not his picture taken by November 20 would not be guaranteed inclusion in the Annual. Make the work of the editorial board as easy as possible by having your picture taken immediately.

It is decided that an Annual would be donated to any one who should have three drawings accepted by the board of editors.

The meeting adjourned, with no definite date set for the next one.

COUNCIL PICTURE.

The Students' Council picture will be taken at Rembrandt's Studio at 12.15 to-day.

GERTRUDE THE GOVERNESS

Shadowgraph Portrayal of Dr. Leacock's Story Amuses Large Audience at R. V. C.

On Wednesday afternoon, at three o'clock, the first meeting of the A. E. Society was held in the R. V. C. common room. The president, Miss Margaret Cameron, welcomed the new members of the society in a short address, and then the spectators turned their attention to the entertainment of the afternoon, the shadow play, "Gertrude the Governess." All the performers and also the stage managers are to be congratulated on the success of their efforts. The audience was in fits of laughter all the time, as the romance of Gertrude the Governess, which is so amusing in itself was rendered still more so by the very lively shadow figures. Miss Margaret Cameron read the story, which the actors illustrated by their motive and gesticulations behind a sheet stretched between them and the audience. The spectators admired and marvelled at the ingenious hobby horse ridden by the hero, Lord Ronald, the chaise in which the heroine drove, and the easement window out of which she looked. Great was the excitement when at last all the obstacles were overcome, and rather killed off, and the hero and heroine fell on each other's neck.

JOINS SIGNALLERS

Lieut. D. H. Macfarlane, Sci. '17, Appointed As Officer in Signalling Corps.

Lieut. D. H. Macfarlane, of Science '17, who has been on the staff at Valcartier camp during the summer, was in town over night. He leaves very shortly on overseas service, having been appointed signalling officer at divisional headquarters. He will be stationed at Tunbridge Wells.

STUDENTS IN AGRICULTURE ARE NUMEROUS

A Large Number of Students Register at Macdonald, in School of Agriculture.

FOR SESSION OF 1915-16

Large Classes in All Years, But Especially So in Freshman Year.

The following students are registered at Macdonald College School of Agriculture for the Session of 1915-16.

First Year Class.

Section A—Bailey, Maxwell Samuel, Chambly Canton, Que.; Barnett, William Horace, Shawville, Que.; Bourne, Benjamin Arthur, The Chateau, Fontabelle, Barbadoes, B.W.I.; Burbank, Munson Dudley, 11 Batavia street, Boston; Butler, John Harold, R.F.D. No. 1, Lennoxville, Que.; Garceau, Oscar, Macdonald College, Que.; Hamilton, James Young, Shawville, Que.; Kings-Westmont, Walter Ross, 27 Rosberry avenue, Ottawa; Maw, William Alfred, Ormstown, Que.; Pcsner, Abraham Noah, 55 Guilbault street, Montreal; Rey, Alphonse Marie, c/o. Principal E. H. Brandt, Pointe-Aux-Trembles; Selenger, Samuel, 1020 St. Urbain street, Montreal; Simard, Joseph Charles, Ernest, Baie St. Paul, Que.; Singer, Morris, 833 Cadieux street, Montreal; Smith, Charles Henry, 79 Davis street, Rutland, Vt.; Sutherland, John Douglas, 4330 St. Catherine St., Westmount; Welsh, John Nicholas, Kingsmere, Que.; Wright, Edward Shireff, c/o. Mr. James Stevens, Windsor, Que.

Section B—Adams, James, Hampton, N.B.; Aldrich, Ira Hastings, R.M.D. No. 5, Coaticook, Que.; Ashton, William Elmo, Waterloo, Que.; Boyce, Charles Edward, Athelstan, Que.; Dogherty, Franklin William, 290 Boulevard St. Joseph West, Montreal; Eades, Thomas Clarence, R. R. No. 1 Shawville, Que.; Graham, James Wesley, Brysonville, Que.; Hyde, Charles John, Huntingdon, Que.; Kutzman, Nathan, 1557 St. Lawrence Boulevard, Montreal; Laurie, Douglas Melrose, 398 Melrose avenue, Montreal; Levine, Leo, Ste. Agathe des Monts, Que.; Little, Henry Walter, Kinross's Mills, Que.; Middlemiss, Stuart Gilbert, R. R. No. 2, Sawyerville, Que.; Nesbitt, Harvey, Winchester, Ont.; Ogilvie, Harvey Drummond, Cumming's Bridge, Ont.; Patenall Donald, 92 St. Mark street, Montreal; Phaneuff, Romuald Joseph Antoine, St. Antoine de Vercheres, Que.

Second Year Class.

Arnold, Gilbert Ewan, Grenville, Que.; Birks, Hobart McNeill, 715 Pine avenue, Montreal; Buckland, Allan John Bellows, Coaticook, Que.; Cairnie, Gordon Child, 915 Tupper street, Montreal; Cameron, Sidney Young, Odamsville, Que.; Chauvin, Frank Bernard, 720 Maplewood avenue, Montreal; Derick, Russell Arthur, Clarenceville, Que.; Dodd, John James (Beech Ridge, Que.), R.R. No. 4, Lachute, Que.; Hawke, Lewis Charles, Ste. Anne de Bellevue, Que.; Hodge, Reginald George, Cookshire, Que.; Holden, Edgar Wendell, Freilighsburg, Que.; Holmes, William Bernard, R.M.D. No. 1, Ayer's Cliff, Que.; Jones, Walter Norman, 80 Somerville avenue, Westmount; MacBeau, Ralph Elsworth, Danville, Que.; Macfarlane, Innes Parlane, Huntingdon, Que.; Mace, Hubert Seward, 39 Nicholas street, Rutland, Vt.; Mathews, George Douglas, Macdonald College; Newton, Miss Margaret, Plaisance, Que.; Norcross, Ashley Christopher, Lennoxville, Que.; Reid, Edwin G. Ballantyne, Hemmingford, Que.; Reid, Robert Jack Murray, Chateaugay Basin, Que.; Robinson, Foster, Ducloux P.O., Que.; Smilley, Victor Claude, R.R. No. 2, Shawville, Que.; Tilden, Samuel Foster, 67 Rosemount avenue, Westmont; Todd, Robert Henry Douglas, R.M.R. No. 2, Lachute, Que.; Walsh, Cecil Eric, Shawville, Que.; Woodward, William Walton, R.R. 2, Ste. Rose, Que.

Third Year.

Bothwell, Alexander Frederick, L'Angeur, Que.; Buckley, George Frederick, 209 South Park street, Halifax; Creed, Richard, Albion, P. E. I.; Cunningham, Howe Symonds, Tatamagouche, N.S.; Dickson, George Herbert, Rectory Hill, Que.; Dunsmore, Wilford Grant, Huntingdon, Que.; Elliott, Rowland Montague, Danville, Que.; Fiske, Roland Clarence McLeod, Clarenceville, N.B.; Hatch, Earle Clifford, Oranmore, N.B.; Hetherington, Thomas Gilbert, Ste. Anne de Bellevue, Que.; Hignam, Charles Gordon, 231 McLeod street, Ottawa; Hodgins, Samuel Raymond, Norris, Box 45, Shawville, Que.; Jones, Llewellyn Rhadwael, Sabrevois, Que.; MacKenzie, Alexander William Bedford, N.S.; MacKenzie, John Murdoch Fraser, Coxheath, N.S.; Morris, Campbell, Ste. These de Blainville, Que.; Norris, Campbell, Ste. Therese de Blainville, Que.; Newton, John Dawson, Plaisance, Que.; Rankin, Thomas Brown Gray, Macdonald College, Que.; Reid, William John, Chateaugay Basin, Que.; Roy, Louis Charles, Sabrevois, Que.; Skinner, Samuel Greenway, Macdonald College, Que.; Taylor, Eldon Main, Little Shemogue, N. B.; Wood, Edgar George, R. R. No. 1, Lachute, Que.

Fourth Year.

Bigar, Thomas Howard, Huntingdon, general (option); Boving, George Bror, Macdonald College, cereal husbandry (option); Cochrane, Edward Stanley, Clarenceville, Que., general (option); Crothers, Loring Wm., Foreman, Ste. Anne de Bellevue, Que., general (option); Fenoulhet, George Macdonald College, selective (option); Fraser, John Gordon Carl, 19 Laval street, Quebec, cereal husbandry (option); Gooderman, Charles Benjamin, Nova Scotia Agr. College, Truro, N.S., selective (option); Hacker, James MacMillan, North Bedouque, P.E.I., cereal husbandry (option); Hay, George Clunie, Lachute, Que.; animal husbandry (option); Hicks, Ora Camp-

MEETING OF ARTS '16

G. H. Schofield Elected on Track Club—Senior Play Proceeds For Patriotic Purposes.

A meeting of Arts '16 took place in the Reading Room of the Arts Building yesterday, at 12 o'clock. Mr. Rosemar called the meeting to order and announced the need of choosing a representative of the class on the Track Club. Mr. J. H. Schofield was elected. The question of what charity the proceeds of the Senior Play were to be donated was raised by Mr. McKenzie. A note was taken expressing the opinion of the class that the money should be given to patriotic purposes.

LAW '18 ELECTION

L. McCaffery Elected Representative For Track Committee.

At a class meeting of Law '18, L. McCaffery was unanimously elected track representative. One of the members of the class, Mr. De Villis, suggested a new departure in the way of weekly discussions on different questions arising out of the course for the year. The task of launching the plan was delegated to the class executive.

The Royal Military College of Canada

THERE are few national institutions of more value and interest to the people of the Royal Military College of Canada. Notwithstanding this, its object and the work it accomplishes are not sufficiently understood by the general public.

The College is a Government Institution, designed primarily for the purpose of giving instruction in all branches of military science to Cadets and Officers of the Canadian Militia. In fact it corresponds to Woolwich and Sandhurst.

The Commandant and military instructors are all officers on the active list of the Imperial army, lent for the purpose, and there is in addition a complete staff of professors for the civil subjects which form such an important part of the College course. Medical attendance is also provided.

Whilst the College is organized on a strictly military basis the cadets receive a practical and scientific training in subjects essential to a sound modern education.

The course includes a thorough grounding in Mathematics, Civil Engineering, Surveying, Physics, Chemistry, French and English.

The strict discipline maintained at the College is one of the most valuable features of the course, and in addition, the constant practice of gymnastics, drills and outdoor exercises of all kinds, ensures health and excellent physical condition.

Commissions in all branches of the Imperial service and Canadian Permanent Force are offered annually.

The diploma of graduation is considered by the authorities conducting the examination for Dominion Land Surveyor to be equivalent to a university degree, and by the Regulations of the Law Society of Ontario, it obtains the same exemptions as a B.A. degree.

The length of the course is three years, in three terms of 9 1/2 months each.

The total cost of the course, including board, uniform, instructional material, and all extras is about \$800.

The annual competitive examination for admission to the College is held in May of each year at the headquarters of the several military divisions and districts.

For full particulars regarding this examination and for any other information, application should be made to the secretary of the Militia Council, Ottawa, Ont., or to the Commandant, Royal Military College Kingston, Ont. H.Q. 91-5.

THE SIZE OF RUSSIA.

Russia lacks only 10 longitudinal degrees of stretching half way round the earth, and possesses, the Liverpool (England) Daily Post and Mercury tells us, one sixth the landed area of the planet. Perhaps the strangest fact is that Russia's Asiatic possessions are forty times as great as those of Japan, even since the new Asiatic balance that followed the Russo-Japanese war was struck. The variety of Russia's resources make the empire second only to the United States as the greatest food producing country in the world. It lends all nations in mineral wealth and timber supply.

DOCTORS VERSUS BULLETS.

(Dr. H. S. Souttar, in "A Surgeon in Belgium.")

"This brings me to a subject on which I feel very strongly, the folly of removing bullets, if a bullet is doing any harm, pressing on a nerve, interfering with a joint, or in any way causing pain or inconvenience, by all means let it be removed, though even then it should never be touched until the wound is completely healed. But the mere presence of a bullet inside the body will of itself do no harm at all. The old idea that it will cause infection died long ago."

NEWS OF THE STUDENT SOLDIERS

McGILL GRAD TELLS OF HIS VOYAGE OUT

R. H. Sutherland, Med. '07, Now Stationed on Island of Lemnos.

WENT WITH HOSPITAL

Writes Home on Experiences Since He Left England Last August.

Robert Sutherland, of River John, N.S., has recently received the following letter from his son, Capt. R. H. Sutherland, Med. '07, of the Medical Corps, describing his trip to the Island of Lemnos:

"Perhaps this will be a good time to address a letter to you, as I am afraid that I am not equal to the task of explaining to this part of the world. I sent a card from Southampton and a letter en route, and called my safe arrival at Alexandria, Egypt, all of which I hope reached you safely. As I said in the letter, we were greatly surprised to get the order to come out here, and nearly all hands were pleased at the idea, as it meant a decided change of scenery and a chance to see more of the world. We left Southampton, England, on Sunday, August 1st, on the ship 'The Adriatic', a very large boat and a very comfortable one. On Monday we entered the Bay of Biscay, and over two-thirds of our party were seasick. Thanks to my extensive travelling, I seemed to escape that disagreeable part of our trip and never missed a meal. We were seldom out of sight of land, as we skirted the coasts of Spain and Portugal. Unfortunately, we missed seeing Gibraltar, as we passed at night and only a few lights were visible.

Mediterranean Trip Pleasant.

"Our trip on the Mediterranean was one long delight, as the weather was delightful. The water there is a wonderful blue color, and at night it is simply beyond description. The following Sunday morning we arrived at Malta and anchored to await further orders. We did not get a chance to go ashore, but had a good view from the ship, and there was nothing attractive about it. It seems all sand and rock, with very little vegetation in sight. The city is all of stone, and looks awfully hot in the glaring sun. We soon got orders to proceed to Alexandria, Egypt, and weighed anchor for another four days' sail. We were just at church service when the anchor was dropped, and the chaplain reminded us that Malta was the island where St. Paul had been shipwrecked.

Stay at Alexandria.

After four more delightful days we arrived at Alexandria, and the sights there are worth the trip alone. It is an immense place, and parts of it are just exactly like the picture of Bible times. The European part of the city is quite modern and the only interesting part is the costumes of the natives. The native part of the city is entirely different, and looks just as it must have done 1,000 B. C. The houses are stone and the streets are very narrow and extremely dirty. They are crowded with children, goats, sheep, oxen, poultry and donkeys, and the resulting mixture is beyond description.

The natives are very dirty and wear long flowing robes of different colors. The women are veiled and seem to be doing the heavier part of the work, as they nearly all are carrying loads on top of their heads. It is really very funny to see some of the sights and I would not miss it for a whole lot.

Weather Warm.

After three days in Alexandria we transferred to another ship, the 'Africa', and set sail again. The 'Africa' was a transport, and even larger than the 'Adriatic', but not nearly so comfortable. You may guess that we are now in a pretty warm climate, so it was impossible to sleep in one's berth. We used to pick up our mattresses and bedclothes and go on deck. Four more days' sailing brought us to the Aegean Sea, and the island we are now settled on. Our impression of the place, on first seeing it, was not very favorable, and has not improved on acquaintance. The soil is all sand and small stones and lava, and at present the vegetation is burnt down. The weather is very hot and the flies are in myriads of millions.

Hospital Established.

Fortunately, the nights are delightfully cool and the flies disappear, so that we are able to sleep in real comfort. We have our hospital established now and receiving patients, so there is no time to worry about a few little discomforts. Of course we have no idea how long we will be here, but are hoping that it will not be for long. It probably will depend on the progress of the campaign on the peninsula. We got our first mail to-day, and I was fortunate enough to get two letters from home, one dated July 6 and the other July 15. They are somewhat old, but none the less welcome, as a letter here looks like a legacy of fifty thousand. Try to explain to mother that I am perfectly safe here, as we are as usually miles away from the fighting. The weather in another month will be even more pleasant, so we will be very comfortable. I am beginning to think that this war is going to be rather long. I have put in over a year and am ready to go home any time I get the chance. However, we are not downhearted yet. Love to mother and all. Keep all hands writing.

Your affectionate son,
BOB,
Address: Capt. R. H. Sutherland, M.A., No. 1 Canadian Stationary Hospital, care of General Post Office, London, England.

C. C. LINDSAY, SCI. '15, LIEUTENANT NOW

Tells of His Recent Promotion In Letter to Dr. Adams.

Dr. Adams recently received a most interesting letter from C. C. Lindsay, of the class of Science '15. Lieut. Lindsay, who is at present attached to a field company of the Royal Engineers, has just received his commission and expects to be sent to the front in about a month's time.

His old company, the 6th Field Company, Canadian Engineers, left for France about a week ago, just missing the chance of participating in the recent big drive. Lindsay, of Science '15, and McLeod White, Mining '16, were also with them.

October 7th, 1915.

Dear Dr. Adams:
I thought you might be interested to know that I have been fortunate enough to secure a temporary commission as second lieutenant in the Royal Engineers, Regular Army. Am at present attached to a Field Company here for further training, and am expecting to be sent to the front in about a month's time, though whether it will be France, the Dardanelles or Serbia will not be known till a week or so before we leave.

My old company, the 6th Field Company, Canadian Engineers, of which Massy Baker is a member, went over to France over a week ago, just a little too late for that advance the Allies made recently. Lindsay, of Science '15, and McLeod White, Mining '16, were also with them.

We have a splendid set of officers, non-coms, and men here, and they are certainly fit specimens to keep up the glorious reputation of the corps. Geo. H. Kohl, of Electricals 1910, and Hall, Civils '07, are also here, and wish to be remembered to you and Professor McLeod.

With very best wishes,
Yours sincerely,
C. C. LINDSAY,
Civils, 1915.

MEN LIGHT CIGARETTES ON THE GUNS

Machine Gun Officer Writes Interesting Account of Section in Action.

Prof. J. C. Gwillim, Queen's University, has received an interesting letter from a friend of his who is in a machine gun brigade on the firing line. The letter was written on October 4th, and it shows in a vivid way the effectiveness of the machine gun in the present war. Portions of the epistle are as follows:

"The machine gun school (Canadian Division Machine Gun School) was dissolved with five minutes' notice about two weeks ago, and I was rushed up to the trenches that same night with four guns and 80,000 rounds of ammunition; and for two nights I had no sleep and nothing to eat for 24 hours. My guns were so hot that night from firing that the gunners were lighting their cigarettes from the gun barrels. Fortunately, I moved my position, which was an open one, behind some hedges, just at daybreak, and five minutes after I got away the German artillery vigorously shelled my position. For the next ten days I was firing about 6,000 rounds a day, long range, indirect fire, at various fancy targets.

"We have information as to the use of various buildings are being put to, and just at lunch time I put a belt (250 rounds) into the German artillery mess. It was about 2,400 yards away, but apparently had some effect, for 15 minutes after they replied with 30 shells. The next day I tried again, but they must have moved, as there was no response, and it was most disheartening to waste good ammunition without appreciation.

"I was also putting some guns through an endurance test, 1,500 rounds as fast as possible, and we used to put these in at 2,500 yards at a railway siding, and for several days this would draw Fritz, but latterly it ceased to do so. The Germans are ingenious people and never disguise their feelings of annoyance, and any place that they did not resent being fired on was evidently not occupied."

AT THE LONDON

Charlie Chaplin Secured Permanently And Will Appear In Different Comedies.

Charlie Chaplin has secured, after very hard work, a permanent job at the London, and he will appear in a different comedy on every change of programme. In addition to him for to-day and to-morrow, there is the celebrated three-part Vitaphone feature de luxe, "Through Troubled Waters," showing for the first time in Montreal. In addition to this, there is a two-part business drama, entitled, "The Meddler," something worth while seeing. Heine and Louie in "Matrimonial Bliss" completes the programme for those days.

Coming Saturday and Sunday, Herbert Rawlinson, in "The Fair God of Sun Island," in three parts, as well as J. Warren Kerrigan in a two-part photoplay, "A Life at Stake." And don't forget Charlie Chaplin also.

EXAMINATIONS IN C. O. T. C. COMING SOON

Special Examination For Certificate A to be Held Last of November.

MUST HAND NAMES IN

Further List of Enlistments And Transfers is Announced in Orders.

BATTALION ORDERS No. 16,

by
LIEUT.-COLONEL ROBERT STARKE,
O.C. McGill Cont., C.O.T.C.
Montreal, Oct. 26, 1915.

1. Special Examination, Certificate A. A special examination for those men who failed at the examination held in the spring for Certificate "A" will be held about the end of November or the beginning of December.

Men who intend to go up for this examination should hand in their names to Major McKergow as soon as possible.

By order,
J. C. SIMPSON,
Lieutenant.

PARADES CONTINUE THURSDAY NIGHTS

Not Until Enough Students Have Joined Will Date be Changed to Friday.

McGILL CONTINGENT, C. O. T. C.

Evening Parade.

Until enough students have enlisted to justify the change of the evening parades from Thursday to Friday evening, the Battalion will continue to parade on Thursday evening at 7.45, at the old High School, Metcalfe St.

Attendance.

Attendance, as counting towards "Efficiency" for students of the Faculties of Arts and Science, will begin to count from November 1st for all students who enlist in the Contingent on or after that date.

By Order,
J. C. SIMPSON,
Lieutenant.
Acting Adjutant, McGill Cont., C. O. T. C.

R. M. C. CADETS BACK.

Word has reached Kingston that Captains J. A. Turner and G. H. Hay, former R. M. C. Cadets, who were wounded at Hooze on Sept. 25, are to be allowed home on sick leave. They were officers in the second battalion, Royal Scots.

PRaises WORK OF Y. M. C. A. AT THE FRONT

Huge Tent is Now Filled to Capacity With Wounded Tommies Convalescing.

Letters from men at the front speak in the highest terms of the work the McGill Y. M. C. A. is doing. This most essential organization is to be found situated at the General Hospital, No. 3 McGill. The large tent, which has a capacity for about 250 men, is full to overflowing nearly all the time—in fact, so much so that the secretaries have great difficulty in even getting in.

The interests are many and varied. Every possible thing is done to keep the convalescent soldiers interested, and 100,000 sheets of McGill writing paper are being distributed free of charge every month to the men.

The requests from patients for books and testaments far exceed the supply, but, however, those in charge have found it possible now and again to send bundles of literature to Captain Barclay's men in the trenches.

Two McGill men are in charge of the tent every day. Some of these are Frank Pedley, Lockhart Gall, Monty Montgomery, Tulling, Ben Keeping and Craik.

OPENS HOSPITAL

Dr. W. Chipman, of McGill, Chief Speaker at Dedication of Maternity Hospital.

Dr. Walter W. Chipman, of the department of obstetrics and gynaecology, was the principal speaker yesterday at the dedicatory exercises which threw open to the public the Elizabeth Steel Magee Maternity Hospital in Pittsburg, Pa.

The hospital, erected at a cost of approximately \$1,000,000, was provided for in the will of the late C. L. Magee, who was for many years publisher of the Pittsburg Times, and one of the best known Republican leaders of the State, as a memorial to his mother.

It has an endowment of \$3,000,000, and in addition to caring for unfortunate women of whom no question may be asked, is complete in every detail with educational and clinical features related to obstetrics.

SOME LUCK!

Speaking of disillusion, there is the case of the man who found a handful of four-leaf clovers and lost his pocket-book in the search.

TWO PRECEPTS.

Be valyaunt, but not too venturesous. Let thy attire be comely, but not costly.—Lily's Euphuys (1579).

COLLEGE MAN'S EXPERIENCE UNDER FIRE

Edgar Penney Comes Through First Engagement Unscathed.

EIGHT DAYS IN TRENCHES

Famous Guards Reinforce Their Hard Pressed Left Flank.

Lieut. Edgar Penney, Sci. '16, who crossed to the front during the summer, writes as follows to Dr. F. D. Adams:
Oct. 2, 1915.

Dear Dr. Adams:

I have just been through the very recent fighting and came off scot free, although when I look back back I can hardly believe I am still on deck. We were the pivot of the whole British army, and our brigade did marvelously well. We earned the thanks of Sir John French, and I can add nothing more. We believe that to be sufficient.

We left a small mining town about six miles from the firing line after dark one evening and marched to our positions, arriving there about 2.30 in the morning owing to the congestion of traffic on the route and a road running at right angles to our direction. Being the B. A., such a thing as a temporary overhead bridge is out of the question. However, we had about two hours of peace before the show began. When it did start the racket was something one can scarcely realize. We were supporting and consequently received our baptism of heavy shells and whizz-bangs. The former can easily be judged as to probable place of landing, while the latter burst before you can even hear the report of the gun. I had just come out of a dugout when one made a mess of the parados, and it was my first experience under fire. We next moved into the firing line and here we met shrapnel, machine gun and rifle fire. We were lucky, however, as we only had one casualty. We next took the German trench, and there I picked up the paper on which I am writing this letter. It is a great surprise to one to realize how much explosive and shell it takes to kill or wound one man. Our attack must have come as a great surprise, as the Germans seemed altogether unprepared. Such, however, was not the case everywhere. On our left things were in a critical stage, and the Guards came up. These marvellous soldiers advanced across an open space under heavy fire in extended order with their rifles at the slope, and their casualties were insignificant. I watched the whole through field glasses.

We were eight days in the trenches altogether, and were glad to be relieved. I did not have any rest during all that time, but nevertheless we are all very fit. It is surprising how much one can stand, as it simply poured for four days.

Before I left England I took a course of musketry at Hythe and obtained a

first-class instructor's certificate. There were several Canadians there, and I enjoyed the work immensely. To-morrow we move back again, but this time to somewhere nearer the fir-

ing line, but to a different place, and we shall certainly be in for a drubbing before this battle is over. I am, yours very truly,
EDGAR PENNEY.

The most fascinating of all sports

Trap-shooting! The "sport alluring"! The one great out door game that appeals to everyone—men and women—young and old! It's full of interest and excitement and with a little practice transforms the "couldn't-hit-a-balloon" amateur into a "crack shot".

Everywhere in Canada, trap-shooting clubs are springing up. If there's one in your town, join it. If not, let us help you to start one.

Get the trap-shooting habit. Also get the habit of shooting Dominion Shells, which are used by more Canadian trap-shooters than all other makes combined. The reason is simply "all round dependability"—the result of first class materials, a well equipped factory and workmen of the highest skill.

Look for the "Big D" on every box of Dominion Shot Shells and Metallics. It's a guarantee of perfection.

Dominion is "the ammunition made wholly in Canada", and sold everywhere.

Any trap-shooting information will be gladly supplied free upon request. Address:

College Athletics

TROPHIES ARE TAKEN FROM LOUNGE ROOM

Many Cups Which Were Held by McGill Are Withdrawn.

"The Sprinter" Among Them

Shields Contained on Cups Show A Splendid Record for McGill.

Through the suspension of intercollegiate athletics, it has become necessary to remove the intercollegiate trophies held by McGill from the cases in the lounge room at the Union to another place of safekeeping. The Intercollegiate Athletic Union, at a recent meeting, decided that, in view of existing conditions, those universities holding intercollegiate trophies should not exhibit them.

There are five places vacant in the shelves of the cupboard of the lounge room, where as many cups formerly stood. These are the Dougall perpetual challenge trophy for intercollegiate swimming, presented by J. S. N. Dougall, of Montreal, in January, 1910. The Canadian Intercollegiate Lawn Tennis Association challenge cup is also affected. This has been won three times by McGill, once by Toronto and once by the Royal Military College, Kingston. McGill's winning years were 1910, 1913 and 1914. The Canadian Intercollegiate Basketball League senior trophy was presented by A. Wilson. Perhaps the most handsome of all the cups which have been shown in the Union is the rifle shooting cup, presented by the Dominion Rifle Association for annual competition among the Canadian universities. The plates on the base are not complete and include only the following:

1908--Toronto, 688 points.
1909--Toronto, 695 points.
1910--McGill, 718 points.
1912--McGill, 759 points.
"The Sprinter," the work of Dr. R. Tait McKenzie, M.D. '92, now physical director of the University of Pennsylvania, is an intercollegiate track trophy presented by the students of McGill in 1905. It has been won as follows:

1905--McGill.
1906--McGill.
1907--Toronto.
1908--Toronto.
1909--Toronto.
1910--Toronto.
1911--Toronto.
1912--McGill.
1913--Toronto.
1914--McGill.

ARTS '17 MEETING

T. W. L. MacDermott to Represent Arts '17 on Track Committee.

A class meeting of Arts '17 was held yesterday morning in the smoking-room at 12 o'clock. The only business to be transacted was the electing of a track representative. Mr. T. W. L. MacDermott was voted to represent the class on the track committee.

As there was no further business, the meeting then adjourned.

SOCCER CLUB.

Soccer club practice to-day at 4.00 p.m., at the Stadium. All men requested to turn out as possibility of arranging games will depend on this practice.

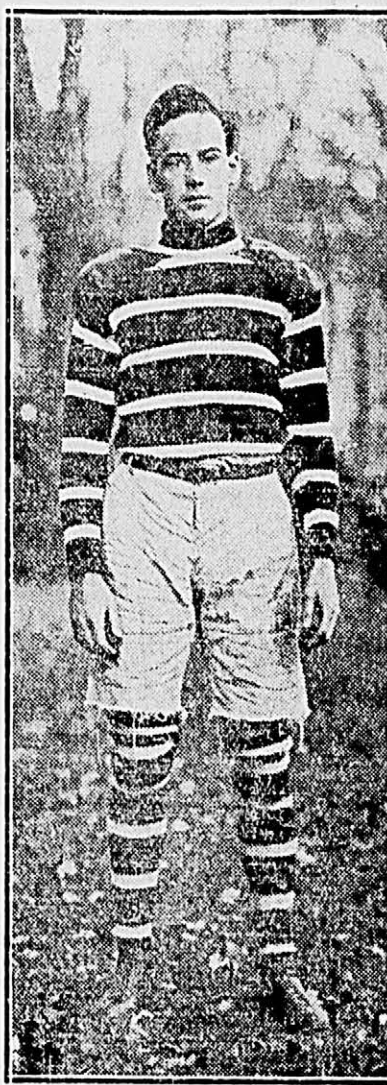

HARRIERS HOLD THEIR FIRST RUN

New Material Which Turned Out Made Excellent Showing.

The first run of the harriers was held last night at 5.30. While there were not as many out as was expected, the new material made a very good showing, considering their lack of condition. Some of the old runners also were out, and from all appearances will have to travel to keep up to such men as Dean and Macklin. Walsh, a new man at the game, also showed up well, and with a little preparation ought to be among the leaders. Bill Antiliff was out and romped home in the lead in his usual easy manner, while MacDermott and Gerrie, of last year's intercollegiate team, were also going strong at the finish.

The runners left the Stadium at 5.30 and followed Pine avenue to Fletcher's Field, where they enjoyed more or less the undulating ground. This was rather hard to navigate in the dark, but proved good practice for cross-country running. From here they followed the mountain road, up under the Incline Railway, and around by the reservoir to the serpentine road. At this point the pace was quickened until Pine avenue was reached, and then started the race back to the Stadium. The night was ideal for the form of running, not being too cold and at the same time chilly enough to make it necessary to keep on the move. The next run will be held on Friday at the same hour.

Back With Ottawas

DON BROPHY.

An Ottawa despatch says that Don Brophy, the former McGill punter, who was out with the Ottawas early this season, may be available for next Saturday's match against the Hamilton Tigers. Brophy has been studying to enter the British army as an aviator, but is coming home and will likely finish out the season with the Senators. His kicking should make the Ottawas much more formidable, as they have been weak behind the line for the lack of a star punter. Eddie Nagle will likely be moved up to the line end and Brophy placed at centre half.

GRANTING OF "M'S" DECIDED

Track Club Holds Meeting And Discusses Who Gets One.

The Track Club executive met yesterday evening in room B, Strathcona Hall. H. Crombie, Sec. '17, who was in the chair, called the meeting to order and asked the secretary to read the minutes, which were approved.

Then followed a statement of the track day finances, as follows: Disbursements, \$90; proceeds, \$60; deficit covered by \$75 grant from the Students' Council.

The chairman next called for nominations for the secretaryship. D. C. Smeltzer, nominated by T. W. L. MacDermott, and W. Antiliff was elected by acclamation.

Some amendments to the constitution were read, and the secretary was instructed to draw up a revised list of the by-laws, including the amendments just read.

The important question of the granting of M's was next mooted. It was agreed that M's would be granted to those who won the various track events and whose performance equalled or excelled that of Toronto or Queen's men in corresponding events. The secretary was therefore instructed to write to these universities and find out the times of the several events.

Finally it was decided to include in the Track Club picture those who won either first or second place in the events of last Friday's university sports.

ARTS SOPHS. DEFEATED BY MACDONALDS

Both Teams Showed Splendid Form But Good Players Gave Place to Better.

THREE MEN LAID OUT

Macdonald Seniors Win on Account of Superior Weight and Technicality of Rules.

Arts '18 met its first defeat at the hands of the senior agriculturalists at St. Anne's yesterday afternoon. The field was in splendid condition, but the sun and wind at the beginning of the game and the darkness at the finish seriously handicapped all players.

During the interval, between lunch and the hour at which the game was scheduled, the sophs were shown over the grounds and conducted through the various barns and pig pens. Much of interest was noted.

At 4.30 the ball was kicked off into play. During the first quarter Macdonald ran away from their opponents and scored and converted a touch.

The second quarter was rather steadier. The Arts men were continuously successful in keeping the seniors on the defensive. Macdonald, however, making use of a trick play--allowable according to Interprovincial, but not intercollegiate--gave sufficient yards to score a touch. This was not converted.

After five minutes' interval, which was cut short on account of approaching darkness, the game was resumed. The play on both sides was much steadier, the Arts men showing up well. Parthing scored four points by his kicks. Reid was forced to drop out with a sprained knee, and later Dickson, after making two sensational tackles, was replaced by Welsh.

In the fourth quarter, due to darkness, plays were very hard to follow, but the decisions of the referee, Mr. Sutherland, and the judge of play, Mr. Green, were very fair and undisputed.

Throughout the game the flying wings did excellent work, and much ground was gained by the backs, led by Captain Henry. Messrs. Burbank, Smith and Rutherford also deserve special mention for their excellent tackling.

The line-up of the teams is as follows:

Macdonald--Patnall, Burbank and Reid, halves; Tilden, quarter; Lyster, Reid and Birks, scrumming; Chauvin and Roy, outside wings; Smith and Holmes, middle wings; Walsh and Arnold, inside wings; Welsh, spare.
McGill--Farthing, Capt. Henry and Rutherford, halves; MacLeod, quarter; Bieler, Butterfield and Graham, scrumming; Dayson and Taylor, outside wings; McGreer and Smart, middle wings; McCrimmon and Laurier, inside wings; MacGibbon, spare.
Officials--Mr. Sutherland, referee; Mr. Green, judge of play.

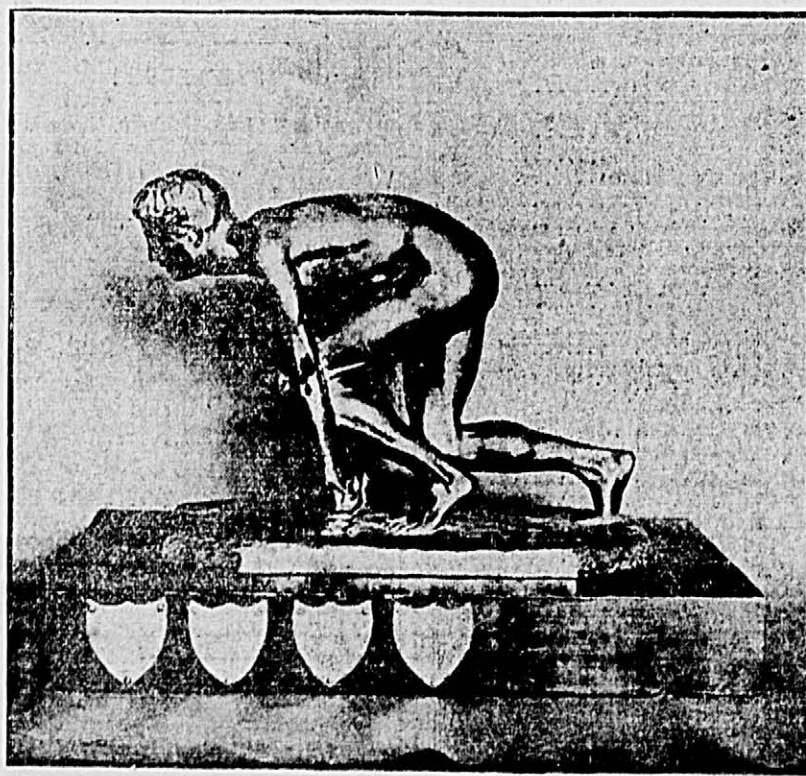

PHYSICAL EXAM.

Men Whose Initials Appear Must Present Themselves on Dates Mentioned.

To-day all men whose surname commences with P, R and S must present themselves for physical examination. Friday, October 29, is positively the last day, and at this time all those whose names begin with T must be examined.

After Friday all freshmen who have not been examined by the medical officers are liable, according to the constitution, to be suspended from the university.

The Sprinter, Dr. R. Tait McKenzie's Trophy

EVERYWHERE WHY?

MURAD CIGARETTES

Ten for fifteen cents.

FINEST QUALITY

WILL QUEEN'S PLAY HOCKEY?

Students Are Desirous of It But the Authorities Are Not.

A Kingston despatch says: Queen's University Athletic Committee has been meeting and discussed the hockey situation. While the student body is anxious to have a team in the intercollegiate series, the authorities are strongly against sports of any kind while the war is on, and it looks as if the college will have to be content with a hockey team in the City League, the same as in the case of football.

Queen's has received an invitation to play in Pittsburg on the occasion of the opening of the new arena there, but it is not decided whether the invitation can be accepted.

HOCKEY CLUB HOLD MEETING

Vacancies in Executive to be Elected at Meeting To-day.

There will be a special general meeting of the Skating and Hockey Club at the Union this afternoon, at 5.15 o'clock, for the election of officers to fill the vacancies in this year's executive.

All those interested are asked to attend.

F. H. ANDREWS, President.

GYM. CLASSES AGAIN TO-DAY

Dr. C. E. Barker to Give Short Talk on Topic of Health.

This afternoon, at 5.15, an added attraction is offered at the second gym class of this year. Dr. C. E. Barker, of Washington, who for four years was physical advisor to Ex-President Taft, will be at gymnasium and give a five minute talk on floor. Dr. Barker is a very enthusiastic exponent of health, and what he has to say will prove very interesting and instructive. Great enthusiasm was shown on Tuesday when many turned out for their first workout.

PATRIOTIC CHOIR

McGill Students to Form Choir to Sing at Recruiting Meetings.

The latest patriotic movement to be started by the students of McGill is the formation of a choir to sing patriotic songs at recruiting meetings in the city and vicinity. Those who are organizing the scheme aim to secure the service of sixty young men who can read music and have good voices, but who for some reason or other are unable to join some unit of the Canadian Expeditionary Forces and go to the front. It is claimed that by joining this choir and getting trained, at least twenty of the number mentioned would be available for each recruiting meeting held, and that although not with their comrades at the front, they would at least be doing "their bit."

BEATS "FAT" ALLEN.

Get the derrick! "Baby" Hill, an Ottawa scrimmage player, weighs 300 pounds and is the heaviest man in the game to-day. Some "baby"!

Allan's

St. Catherine and Peel Sts.
